## Inner Flame

Armed with 52% heat efficiency (JIS standards), the Inner Flame burner cooks faster and uses lesser gas than conventional gas hobs with 40% heat efficiency.

## Tornado Inner Flame

## Versatile Flame Settings With Simmer

Perfect flame control with powerful, controllable and even heating, providing the ideal setting to cook your favourite Asian dishes.

## Save Gas And Cooking Time

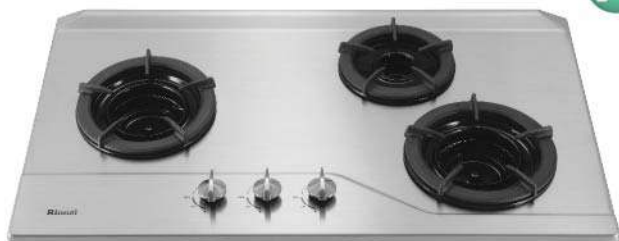

The Inner Flame burner helps reduce energy, it heats the cookware from the middle - resulting in less heat lost.

### 3 Inner Burner Gas Hob

RB-3SI-C-S

WM: RM 2,663 EM: RM 2,797

Gas Input (LPG) L/R 3.6kW C 1.4kW Product Dimension W 870mm D 510mm H 73mm

- Safety Device
- Simmer Control
- Cast Iron Pan Support
- Flexible Cut-out
- Battery Ignition

### Water Boiling Test

\*Based on Japan internal test

|                 | Inner Flame | Normal Flame |
|-----------------|-------------|--------------|
| Gas Input       | 3.6kW       | 4.2kW        |
| Boiling Time    | 348 sec     | 414 sec      |
| Heat Efficiency | 52%         | 40%          |

### Rinnai's Original Combustion Technology

Armed with 52% heat efficiency (JIS standards), the Inner Flame burner cooks faster and uses lesser gas than conventional gas hobs with 40% heat efficiency.

### Protection From The Wind

You no longer have to worry about leaving the windows open when cooking - the Tornado Inner Flame is isolated and protected from surrounding winds.

### Timer

Allows you to conveniently set cooking timer up to 4 hours for more controlled cooking. Flame will auto cut-off when time is up.

### Aluminium Louvre

Oxygen can be drawn in rapidly for more efficient gas burning.

### Inner Drip Pan

Overboiled soup will flow into the inner drip pan, which can be easily taken out for cleaning.

### Cast Iron Pan Support

Cast iron pan support is solid and never deforms in shape. It ensures stability of your wok and pan.

LOTUS FLAME SERIES

2 Lotus Burner Gas Hob  
RB-L2620G-RM

WM: RM 4,699 EM: RM 4,934

Gas Input (LPG) L/R 4.2kW

Product Dimension W 755mm D 435mm H 145mm  
Cut-out Dimension W 670mm D 350mm

- |                    |                     |                       |
|--------------------|---------------------|-----------------------|
| Lotus Triple Flame | LED Blue Light Knob | Simmer Control        |
| Sealed Burner      | Timer               | Tempered Glass        |
| Safety Device      | Battery Ignition    | Cast Iron Pan Support |

**Lotus Flame**  
Exclusive triple-deck Lotus Burner design, with 3D flames surrounding and covering the bottom of the pot, ensuring even and complete heat distribution. It heats up quickly and efficiently, without wasting excess energy, meeting first-level heat efficiency standards of 67% (MS 1535 : 2002).

**Greenovation**  
The 'Greenovation' platform is a breakthrough idea that brings together a synergy of 'innovative technology' and 'environmental sustainability'. 'Greenovation' is the new benchmark for real GREEN products by RINNAI. Our products reimagine the cycles of energy consumption and discharges whilst enhancing overall cooking efficiency.

**Flame Control**  
The triple-deck Lotus Flame design allows for precise control of flame intensity, ranging from delicate simmer to powerful high flame for stir-fry, according to your preference. It enables quick and effortless adjustment to achieve the most satisfying flame.

**Versatile Flame Settings With Simmer**  
The higher flame is ideal for stir-frying or deep-frying. The lower flame is ideal for boiling soup, braising and stewing.

Water Boiling Test

\*Based on internal test

|                 | Lotus Flame | Brand XYZ |
|-----------------|-------------|-----------|
| Gas Input       | 4.2kW       | 5.0kW     |
| Boiling Time    | 190 sec     | 249 sec   |
| Heat Efficiency | 67%         | 55%       |

#### Lotus Flame

Exclusive triple-deck Lotus Burner design, with 3D flames surrounding and covering the bottom of the pot, ensuring even and complete heat distribution. It heats up quickly and efficiently, without wasting excess energy, meeting first-level heat efficiency standards of 67% (MS 1535 : 2002).

#### LED Blue Light Knob

The blue light synchronizes with the intensity of the flame, allowing you to control the heat without bending over.

#### Dual-burner Timer

Allows you to conveniently set cooking timer from 1 min to 240 min for more controlled cooking on both burners. Flame will auto cut-off when time is up.

#### Newly Designed Pan Support

The six-legged pan support design avoids direct contact with the flames, providing protection for the pan support and preventing heat dispersion. This ensures that the heat is more focused onto the bottom of the pot.

#### The step-like anti-leak design

Allows spilled soup to be directed towards tempered glass surface, preventing liquid from seeping into the gas hob casing and cabinet. Thus, prolonging the lifespan of the gas hob and making the countertop easier to clean.

#### Easy To Clean

The triple-deck burner eliminates the need for a drip pan, burner head or burner ring, so there are fewer parts to wash.

#### Aluminium Louvre

Oxygen can be drawn in rapidly for more efficient gas burning.

#### Battery Ignition & Safety Device

Fast and easy, with no electrical wiring. When the flame is accidentally extinguished, the thermostat reacts and shuts off the gas supply to the burner. Easy to replace battery too.

#### Cast Iron Wok Stand

Additional cast iron wok stand to support a big wok for Asian cooking or stir frying.

| Stainless Steel Top   | Safety Device        | Battery Ignition |
| Cast Iron Pan Support | Rubber Legs Attached |                  |

### Flexible Cut-Out Size

Both the glass and stainless steel top plate fit the hob into any cut-out dimension as stated without requiring further modification to your counter-top. Good as a replacement hob!

### 5.5kW Flame

Emits the most powerful 5.5kW flame via the Hyper Burner to ensure maximum heating power for best flavours in cooking, especially the famous "Wok Hei" in Asian cooking.

### Sealed Burner

Messy spillages are minimised and cleaning the hob is quick and easy.

### 5-Legged Cast Iron Pan Support

Cast iron pan support is solid and never deforms in shape. It ensures stability of your wok and pan.

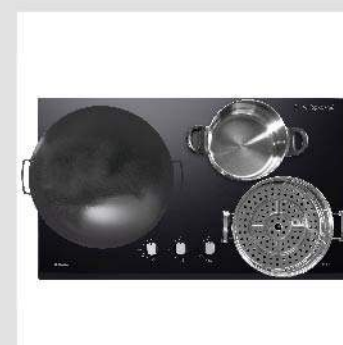

### Safety Device

When the flame is accidentally extinguished, the thermostat reacts and shuts off the gas supply to the burner.

### Schott Glass

Durable and heat resistant Schott Glass.

### Wide Distance for Extra Cooking Space

Thoughtfully designed with ample space between burners, allowing comfortable use of a wok and two pots simultaneously.

## FLEXI SERIES

Flame with Simmer Control

The double ring burner features a powerful flame with simmer control for greater cooking versatility and is suitable for any type of cooking from Asian to Western.

Delicate Simmer Flame

Flame can be adjusted low enough to simmer soups and stews.

Sealed Burners

Messy spillages are minimised and cleaning the hob is quick and easy.

Battery Ignition & Safety Device

Fast and easy, with no electrical wiring. When the flame is accidentally extinguished, the thermostat reacts and shuts off the gas supply to the burner. Easy to replace battery too.

Rubber Legs

The attached rubber legs allow you to place the hob directly on the kitchen workspace, without having to cut a hole or modify the kitchen top.

Flame with Simmer Control

The double ring burner features a powerful flame with simmer control for greater cooking versatility and is suitable for any type of cooking from Asian to Western.

Sealed Burner

Messy spillages are minimised and cleaning the hob is quick and easy.

Delicate Simmer Flame

Flame can be adjusted low enough to simmer soups and stews.

Safety Device & Battery Ignition

Fast and easy, with no electrical wiring. When the flame is accidentally extinguished, the thermostat reacts and shuts off the gas supply to the burner. Easy to replace battery too.

Lever

Allows you to adjust the gas and air intake to achieve right mix of blue flame.

Product Dimension W 820mm D 530mm H 70mm

Cut-out Dimension W 700mm D 410mm

Free Standing Frame

Why settle for a built-in hob when you can have flexibility and style with our free-standing electric hob frame. Designed to give you an alternative to the traditional built-in. (RB-7152HEF-ZB only)

Test Your Cookware for Induction Compatibility

Induction cooking offers speed, efficiency, and safety, but it only works with the right cookware. Unsure if your pots and pans will work? Just hold a magnet to the bottom - if it sticks, they're good to go.

Timer

Allows you to conveniently set cooking timer from 0-480 minutes for more controlled cooking.

Child Lock

The control panel can be locked after programming to prevent a curious child from switching on the hob and also ensuring the hob does not accidentally get heated up during cleaning.

Power sharing feature optimizes energy usage and prevents overload. It distributes power among the cooking zones, allowing them to operate efficiently together. When only one zone is in use, it can utilize the maximum power (Level 9). However, when multiple zones are active, the power is alternated between them to maintain performance. The last command given to a cooking zone takes priority on the power setting.

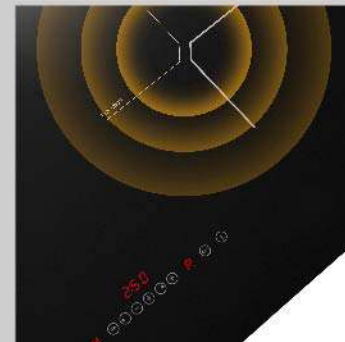

### Dual Circuit Zone

Select between smaller or larger cooking zone, depending on the size of your pots / pans, so you can save more energy.  
(RB-7152HEF-ZB, RB-7022HE-CB, RB-7013E-CB, RB-6024E-CB only)

### Cool To Touch

Induction hobs heat cookware directly while keeping the worktop surface cool to touch, enhancing safety. This minimizes burn risks and hot cooking environment, making it ideal for modern kitchens.

### Booster Function (Induction only)

Increases to max power temporarily to quickly heat up cooking zone and save cooking time.

### Residual Heat Indicator

The indicator lights up when the surface is hot to warn against hot surface and prevent accidental burn.

### Induction Hobs vs Gas Hobs

Induction cooking works by creating a magnetic field that generates heat directly through the base of the cookware. Induction hobs are safe as the heat is directly transferred to the food being cooked. Even if the controls are turned on unintentionally, the hob heats up only when it detects suitable cookware placed on the cooking zone. Induction hobs boil and cook faster than gas hobs because of the heat concentration and high heat efficiency with almost no heat loss.

### Schott Ceran Glass

When it comes to heat, Schott Ceran glass is more durable. The smooth ceramic glass surface offers practical use as well as easy maintenance.

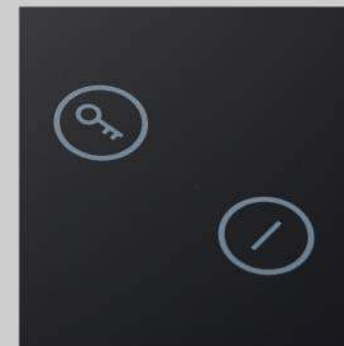

### Auto Pan Recognition Sensor (Induction Only)

Induction hobs are particularly energy saving as the cooking zone recognizes the size of the cookware, and heats up the base of the cookware instead of the whole cooking zone. It also detects right base dimensions.

### Timer

Allows you to conveniently set cooking timer from 0-99 minutes for more controlled cooking.

### Child Lock

The control panel can be locked after programming to prevent a curious child from switching on the hob and also ensuring the hob does not accidentally get heated up during cleaning.

## LEAVES YOUR KITCHEN FRESH & CLEAN

#### Sensor Touch Control

Touch control is extremely easy to use and indicates speed, light and delay timer.

#### Metal Grease Filter

An essential component that filters out grease, smoke, and other airborne particles generated during cooking. This filter with magnet is easy to take apart and clean.

#### Delay Timer

The cooker hood will switch off automatically at a preset time, so you can proceed with your meal after cooking is done. Meanwhile, the cooker hood will continue to extract the oily fumes, leaving a clean kitchen without smoke or pungent smells.

#### Remote Control

The remote control allows for easy operation and adjustment of the hood's settings from a distance, eliminating the need to reach or approach the appliance.

### PLASMA AIR PURIFICATION TECHNOLOGY

#### Cleaner air in the kitchen

Developed from state-of-the-art R&D, Plasma air purification technology eliminates 98% of odours, fumes, allergens and pollutants, ensuring your kitchen always stays clean and fresh.

#### Intelligent Purification: How it works

Plasma purification is a process that changes the molecule composition by harnessing the power of electricity. Comes with a CPU, our Plasma filter efficiently uses a minute and safe amount of electricity to generate a voltage field that electrically charges the molecules of pollutants.

#### Maintenance - Free

Thanks to the plasma filter, the cooker hood doesn't require frequent cleaning. Making it hassle-free.

### Clean and Fresh Function

#### ? How to Use?

1. Press and hold the delay timer icon for approximately 3 seconds.
2. Press the ON/OFF switch icon to start the Clean and Fresh function.
3. The timer orange ring icon will light up.
4. Clean and Fresh function is activated to run 6 mins each hour for 24 hours at speed 1.

### High Suction

Instantly clears heavy smoke and oily fumes, perfect for stir-fry and deep-fry cooking. Keeps air fresh and reduces grease buildup for a cleaner kitchen.

### Auto Heat Clean

This feature uses a heating element to break down and eliminate accumulated grease and grime in just 10 minutes. It offers efficient, automatic cleaning that not only extends the lifespan of the cooker hood but also sterilizes the interior by killing bacteria and microorganisms.

### 1,150Pa High Static Pressure

Ensures smooth smoke expulsion through long or complex ducts. Prevents backflow and lingering odors, ideal for modern high-rise kitchens.

### Wave Control

Touchless Smart Motion Sensor allows you to conveniently control the hood when you are inconvenient to touch the control buttons or when hands are oily. You can switch on/off the hood or change the speed settings with just a wave of your hand.

### Boost Mode

Designed for intense cooking moments, Boost Mode delivers a powerful burst of suction to eliminate smoke and odors fast. It ensures peak performance when you need it most, then seamlessly transitions to high speed for continued ventilation. Breathe easy – even during heavy stir-frying.

### Oil Collector

The large oil cup can contain more oil.

WM: RM 386 EM: RM 406

Included :  
2M Aluminium Ducting Hose ( Ø180mm ) + End Cap

### Wave Control

Touchless Smart Motion Sensor allows you to conveniently control the hood when you are inconvenient to touch the control buttons or when hands are oily. You can switch on/off the hood or change the speed settings with just a wave of your hand.

### Auto Heat Clean

This feature uses a heating element to break down and eliminate accumulated grease and grime in just 9 minutes. It offers efficient, automatic cleaning that not only extends the lifespan of the cooker hood but also sterilizes the interior by killing bacteria and microorganisms.

### Baffle Filter with Wire

Baffle filters come with a grease trap and the filters are sloped, so any grease and moisture that is captured will drip into the grease collector at the back of the hood. With a wire hooked onto the filter, you can take them out without worrying accidental drop.

### Delay Timer

The cooker hood will switch off automatically at a preset time, so you can proceed with your meal after cooking is done. Meanwhile, the cooker hood will continue to extract the oil fumes, leaving a clean kitchen without smoke or pungent smells.

### Oil Collector

The large oil cup can contain more oil.

### LED Light

Energy saving and long lasting LED gives out a warm natural light.

Rectifier Panel

Clean & Fresh

### Rectifier Panel

Full acceleration speeds up the extractions of smoke and grease.

### Clean and Fresh

Discover the ultimate solution for a spotless and refreshing kitchen atmosphere. Once activated, Clean and Fresh function is preset to work for 6 mins each hour for 24 hours at fan setting speed 1. Say goodbye to grease, odours and stale air, and welcome a new era of cooking comfort and cleanliness.

### Oil Cup

The Oil Cup under the extraction motor will collect oil from the air that passes the mesh filter, suitable for Asian cooking.

### Sensor Touch Control

Touch control is extremely easy to use and indicates speed, light and delay timer.

### Mesh Filter

Easy to take apart and clean.

### Delay Timer

The cooker hood will switch off automatically at a preset time, so you can proceed with your meal after cooking is done. Meanwhile, the cooker hood will continue to extract the oil fumes, leaving a clean kitchen without smoke or pungent smells.

(optional accessory)

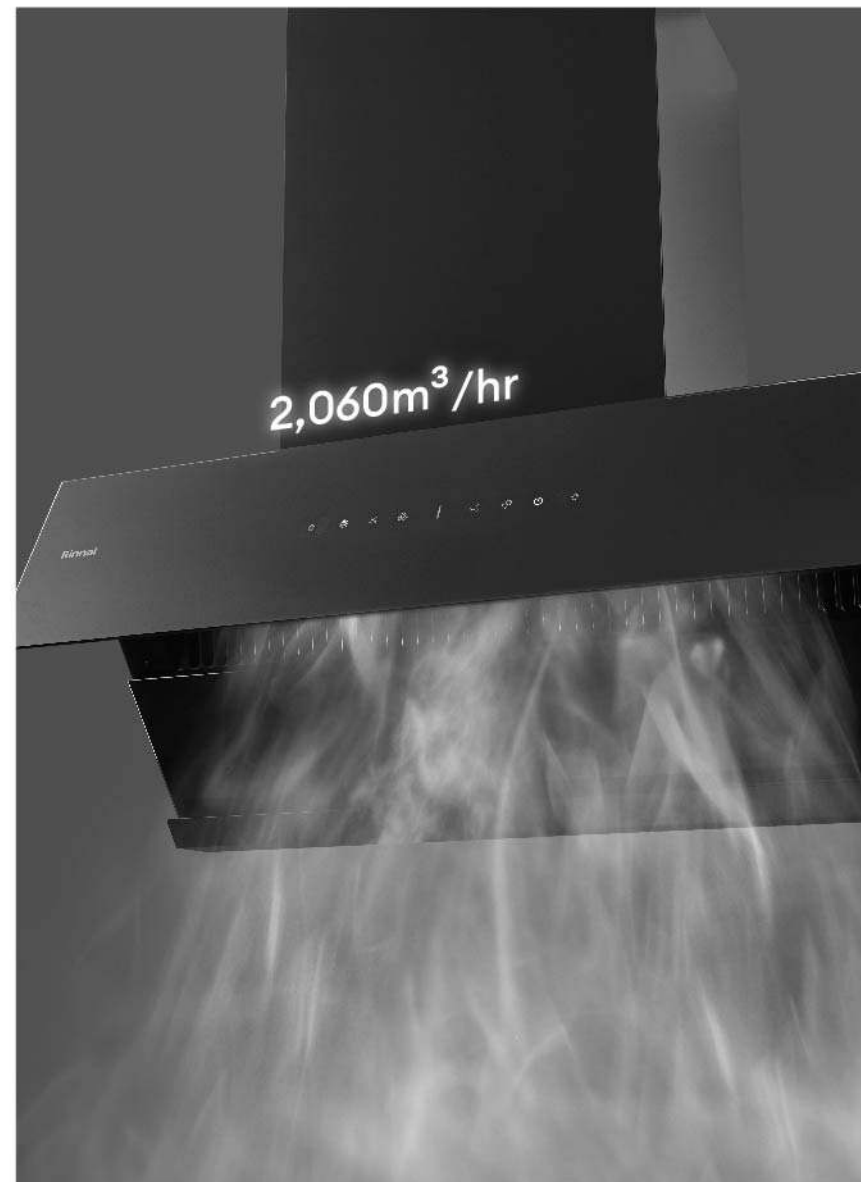

### Auto Heat Clean

This feature uses a heating element to break down and eliminate accumulated grease and grime in just 10 minutes. It offers efficient, automatic cleaning that not only extends the lifespan of the cooker hood but also sterilizes the interior by killing bacteria and microorganisms.

### 1,000Pa High Static Pressure

Ensures smooth smoke expulsion through long or complex ducts. Prevents backflow and lingering odors, ideal for modern high-rise kitchens.

### High Suction

Instantly clears heavy smoke and oily fumes, perfect for stir-fry and deep-fry cooking. Keeps air fresh and reduces grease buildup for a cleaner kitchen.

### Wave Control

Touchless Smart Motion Sensor allows you to conveniently control the hood when you are inconvenient to touch the control buttons or when hands are oily. You can switch on/off the hood or change the speed settings with just a wave of your hand.

### Cruise Boost Mode

With one touch, the hood automatically adjusts fan speed in real-time based on cooking intensity and exhaust resistance — from low to high to stir-frying speed when needed. It's a dynamic system that thinks ahead, ensuring optimal airflow without manual intervention. Just press once, and let it cruise.

### Boost Mode

Designed for intense cooking moments, Boost Mode delivers a powerful burst of suction to eliminate smoke and odors fast. It ensures peak performance when you need it most, then seamlessly transitions to high speed for continued ventilation. Breathe easy — even during heavy stir-frying.

Included :  
2M Aluminium Ducting Hose ( Ø180mm ) + End Cap

**LED Mood Light**

Changeable LED color mood lighting on cooker hood to complement kitchen ambience and enhances mood for cooking.

**Delay Timer**

The cooker hood will switch off automatically at a pre-set time to allow the hood to continue extract the oily fumes, leaving a clean kitchen without smoke or pungent smells.

**LED Touch Sensor Control**

With a touch of your fingertip, you can easily control your hood and initiate powerful extraction to whisk away undesirable smoke, grease and odour generated by cooking.

**Baffle Filter**

Grease and moisture will be captured by the specially designed, sloped baffle filter. It will subsequently filter and trap them in a specially-built grease collector, located at the rear of the hood. The baffle filters can be easily opened up for cleaning since they are no screws attached to it.

**Extra Large Oil Cup**

The extra large oil cup catches more oil residue and requires less frequent of cleaning.

**Easy to Clean**

Flat surface makes it easy to clean and maintain.

### 2600W High Power – Faster Heating, Stronger Steam

Enjoy rapid preheating, powerful steam output, and even multi-layer cooking with 2600W of strong performance, delivering perfect results in less time.

### 50L Extra-Large Capacity

The spacious cavity easily accommodates multiple trays for effortless cooking. Perfect for daily meals and batch cooking.

### Sterilizer – High-Temperature Hygiene

Harnessing powerful high-temperature steam, the sterilizer function deeply cleanses the oven cavity, eliminating bacteria and odors. A safe, chemical-free way to keep your cooking environment fresh, hygienic, and ready for the next meal.

### Ventilation System

Hot air is circulated out via the front-mounted cooling system to protect surrounding cabinets from heat damage. The released airflow is cooled down and safe to touch. Enjoy powerful cooking performance with peace of mind.

## RO-C5611TA-SB

### 3-in-1 Versatility: Steam, Bake & Air Fry

Experience the power of steaming, baking, and air frying – all in one appliance. Convenience level: 100%

### 35 Preset Smart Recipes

Cook like a pro with 35 one-touch auto programs for common Asian and Western dishes – automated time and temperature for consistent results.

### High-Temperature Steam – Lock in Freshness and Nutrition

With powerful 360° steam circulation, food is cooked evenly while retaining its natural nutrients and flavors. Perfect for seafood, vegetables, and delicate dishes, delivering a healthy and delicious dining experience every time.

### 7 Multi-Dimensional Baking Modes

Its advanced multi-dimensional heating modules combine flexibly to create 7 different baking modes for versatile cooking (Convention Bake, Steam Bake, High Power Bake, Low Power Bake, Convection Grill, High Power Grill, Low Power Grill). Also equipped with intelligent internal temperature probe for precise temperature control.

### Oil-Free Air Frying – Crispy Taste, Healthier Living

Experience guilt-free indulgence with 360° hot air circulation that delivers a crispy golden texture without excess oil. Enjoy your favorite fried foods that are lighter, healthier, and just as delicious.

## RO-S5614TA-SM

### 2-in-1 Cooking Power: Steam & Bake Modes

From golden chicken skewers to perfectly steamed sweet potatoes and corn. Enjoy the freedom of switching between Steam and Bake modes in one oven – bringing out the best taste and texture in every dish.

### Advanced Steam-Bake Technology

Combines top + rear heating with steam injection to deliver crusty exteriors and juicy interiors – ideal for breads, roasts, and cakes.

### Smart Water Tank System

Auto-eject water tank with low water detection & refill reminder without needing to open the oven door that will affect the inner cavity temperature. 1.2L water capacity can steam up to 110mins.

### Delay Timer

Set the oven to start cooking after a delay of up to 12 hours. Perfect for planning ahead, so your dishes are ready exactly when you need them.

### Child Lock Protection

Simply press and hold for 2 seconds to activate or deactivate the child lock, preventing accidental operation by children and eliminating potential safety risks. Enjoy peace of mind with every use.

Simultaneous Cooking

Charmingly fast, saving time and energy. The oven reaches a temperature of up to 200°C in just 4 minutes, saving 30% of the time needed by standard preheating. A light and sound signal informs when the temperature is right.

Cool-to-Touch Triple Glazed Oven Door

The low-e glass reflects heat back into the oven, boosting safety and efficiency. It helps to keep the oven door cool while it is in use.

\*Only for RO-E6533T-EB & RO-E6523M-EB

Air Fry

This method of baking gives the food a crispy crust, without added fat. It is a healthy version of "fast food" with a lower calorie content. Suitable for small cuts of meat, fish, vegetables and pre-prepared frozen products.

Gratin

Gratination process is used in the final stage of baking and will run for 10 minutes, to get a golden yellow crust on the dish. This process protects the dish from drying while giving it a nicer look and better taste.

Aqua Assisted Cleaning

AquaClean offers great assistance in cleaning the oven cavity. All it takes is to pour 0.4 litre of water into a baking tray and turn AquaClean on after each baking. This function is using bottom heater at 70°C in just 30 minutes. Stains and grease are softened and can be easily wiped away.

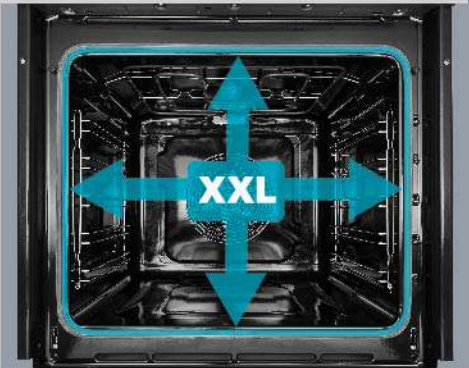

Fast Preheat

Charmingly fast, saving time and energy. The oven reaches a temperature of up to 200°C in just 4 minutes, saving 30% of the time needed by standard preheating. A light and sound signal informs when the temperature is right.

77lt Super Size Cavity

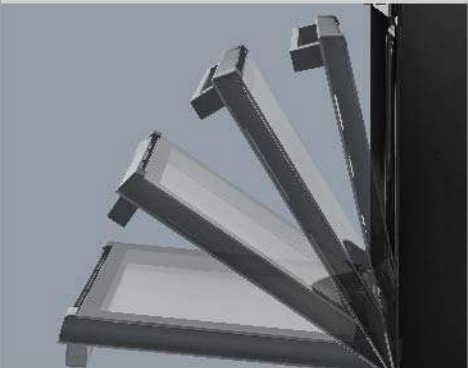

The 77lt extra-large cavity offers you extra space for flexible cooking. More spacious oven allows you to cook a larger quantity of food - 46cm wide baking trays.

Gentle Open and Close Door

The smart high quality hinge design means that opening and closing the oven door is smoother and quieter than ever.

Removable Door

The glass door can be detached easily so that the oven cavity can be cleaned more easily and thoroughly.

Multifunction

Each function is designed to give you the most ideal cooking method to suit your recipe and to provide the best results. For e.g, Fan & Grill function ensure your large roast is being cooked through.

Extra-Large Cavity

The 70lt extra-large cavity offers you extra space for flexible cooking.

Sensor Touch Timer

You can use the timer to count down the cooking time or program your oven to start/stop at a particular time.

3D Circular Fan

The circular heating distribute heat evenly so that you can cook different types of food on different shelves simultaneously without worrying that the smells and tastes will be transferred from one dish onto another.

Measurements in mm.

\* For bench top installation, minimum 5mm ventilation gap is required on both sides of appliance. If oven installed below a hob, minimum 30mm ventilation gap is required between hob and oven or refer to required distance instructed in the hob manufacturer's instruction manual. Follow the higher distance if in doubt.

MICROWAVE OVEN SERIES

RO-MB2508-BT

WM: RM 1,900 EM: RM 1,995

Overall Dimension W 595mm D 382mm H 390mm  
Cut-out Dimension W 566-580mm D 550mm H 365-380mm

Microwave Power Output: 900W

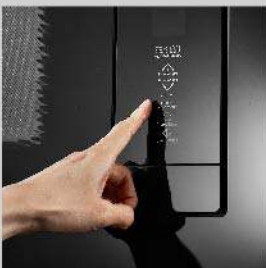

- 5 Microwave Power Levels
- 6 Auto Cooking Menus
- Flatbed
- Electronic Control
- Single Button Heating
- Auto Weight Defrost
- Child Lock
- Grill Heater: 1,200W
- Grill Rack x 1

**Flatbed**  
Say goodbye to the turntable. The flatbed cavity offers more usable space and fits a wider variety of dishes. It also makes cleaning quicker and more convenient – just wipe and go.

**Evenly Cooked**  
A rotating antenna at the base distributes heat from multiple angles, ensuring food is cooked thoroughly and evenly.

**Auto Menu**  
Choose the food type and weight, and Auto Menu automatically sets the optimal power and cooking time. Perfect results, every time – no guesswork needed.

**Grill Function**  
Enjoy deliciously crisp, browned meals with the built-in grill heater. Ideal for roasting and finishing dishes with a golden touch, just like in a traditional oven.

**26L Super Large Capacity**  
Spacious interior that handles everything from everyday meals to party-sized dishes with ease.

**Timer Cooking**  
Set the start time and let your microwave do the rest. Perfect for busy schedules, meal prepping, or making sure dinner is hot right when you need it.

**Auto Weight Defrost**  
Just enter the weight of your frozen food, and the oven automatically adjusts the defrosting time and power. Gentle, even thawing – no overcooked edges.

**Microwave + Grill Combination Cooking**  
Enjoy faster cooking with microwave speed and grill crispiness in one combination, be it small or large roast.

HOWARO C SERIES

HOWARO C  
Table Top Cooker with Grill

RTC-6912SG-EWS-RM

WM: RM 2,292 EM: RM 2,407

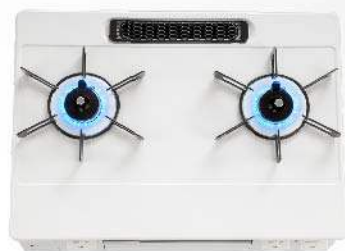

-  Water Boiling Mode
-  Rice Cooking Mode
-  200°C  
180°C  
160°C  
Deep Fry Temperature Control

Gas Input (LPG)  
High Flame Burner (L): 4.4kW    Standard Burner (R): 3.25kW    Grill: 2.5kW

Ignition System    Continuous Spark  
Dimension    W 596mm    D 495mm    H 218mm

-  Timer
-  Temperature Sensor
-  360° Grill
-  Auto-Adjust Flame Level
-  Ignition Safety Lock
-  Safety Auto Cut-Off

### Temperature Sensor

Thanks to this special sensor, the Howaro C is able to perform many functions by sensing the temperature of the pot or pan.

#### Cooking functions:

- Timer Mode
- Rice Cooking Mode
- Water Boiling Mode
- Temperature Setting Mode
- High-Temperature Cooking Mode

#### Safety features:

- Auto-adjust the flame level accordingly to avoid abnormal overheating or oil from catching fire
- Gas supply will be auto cut-off if the flame is extinguished by overflow liquid or strong wind
- Grill flame will be auto cut-off if the grill chamber overheats
- If detects burning of food, flame will be auto cut-off

### 360° Grill + Rinnai Exclusive Cocotte Plate

Grill a variety of food with the specially-designed Cocotte Plate that comes with the Howaro C.

Heat circulated evenly within the grill chamber combine with the slit-design of the Cocotte Plate cover allows heat to be well-contained and properly transmitted throughout to achieve maximum taste of the grills. The slits also help to minimise oil splatters for easier cleaning.

The wave-like design of the Cocotte Plate with side drain catches excess oil drippings.

#### Water Boiling Mode

The flame will auto cut-off once water is boiled.

Choose between auto-off or to keep warm for another 5 mins before auto-off.

#### Temperature Setting Mode

The flame will be auto-adjusted to maintain within the selected temperature. Great for frying or pan-grilling food!

#### High Temperature Cooking Mode

Great for quick stir-fry as it maintains the flame on high flame for a short period of time.

Can last up to 30 mins.

#### Timer Mode

Allows you to conveniently set cooking timer up to 90 mins.

Once timer is up, the burner flame will be auto cut-off.

#### Rice Cooking Mode

This setting allows you to cook rice conveniently as the burner will automatically adjust the flame and cooking time.

Can also use to cook porridge.

### Innovative Four-Arm Spray System

Ensures 360° cleaning coverage with a four-arm rotating spray design, leaving no blind spots.

### Spacious 18-Place Setting Capacity

Perfect for large households or hosting, accommodating up to 18 people dish sets in one cycle.

### One-click AI Smart Wash

With one click, the intelligent wash automatically detects the level of dirt on the dishes, separates stains, and accurately matches the optimal cleaning time and temperature, making it convenient and worry-free.

### Independent Layered Washing

Offers flexible cleaning with two layers: the top for small loads (1-2 people) and the bottom for intensive washing of pots and heavily soiled dishes. This setup saves energy and water while ensuring efficient cleaning for every need, accommodating full loads of 9-18 people dish sets.

### Four-Layer Disinfection Technology

The entire wash, disinfect, dry, and store cycle ensures health protection. It not only removes dirt but also eliminates bacteria and viruses.

- Antibacterial Water Path
- 75°C High-Temperature Sterilization Wash
- Sterilization
- Automatic Door Opening Drying

### 99.99% Bacteria Removal Rate

Strict protection for waterway hygiene to not only clean oil stains on dish surfaces but also efficiently remove bacteria

### 168-Hour Fresh Air Storage, Ensuring Clean Dish Storage

Automatic hot air + fresh air circulation ventilation prevents bacterial growth during storage, keeping dishes clean for up to 7 days without the need for re-washing.

### Smart Colorful Touchscreen with Visual Guidance

Featuring over 10+6 wash programs with clear, intuitive icons, making it simple and user-friendly with just a touch.

#### Soft & Fluffy

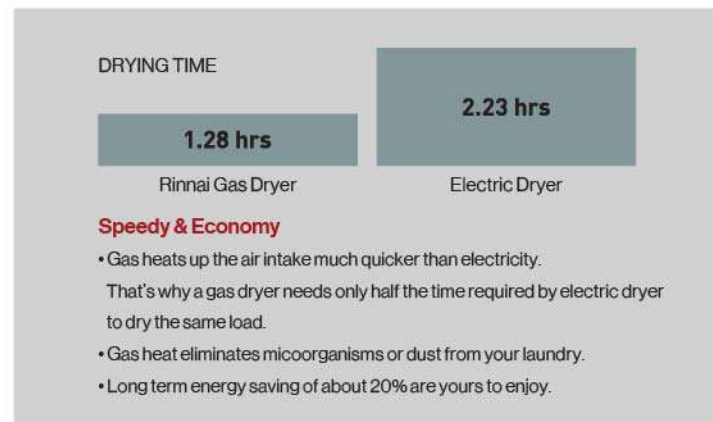

- A built-in microchip sensor constantly monitors humidity at half-second intervals to prevent over drying.
- Water vapour produced during gas combustion keeps your clothes soft & fluffy.

#### KILLS MORE THAN 99% OF GERMS

#### Indoor Drying Increases Bacteria Growth

Drying laundry indoors may lead to rapid growth of bacteria on clothes. As a result, your clothes may smell, and you're more susceptible to diseases such as otitis media, asthma and respiratory infection.

#### Easy Operation

- A computerized user-friendly control panel offers the ease of one-touch operation.
- There are different programs to suit different fabric materials.
- With the built-in sensor, you don't even need to set a timer to ensure best drying results.

#### Outdoor Drying Exposes Clothes to Pollutants

Poor outdoor air quality means that the laundry hung outside for long period of time would accumulate large quantity of PM2.5 particles (atmospheric particulate matters that have a diameter of less than 2.5 micrometers) that can cause skin allergy among children.

#### Comparison disinfection of E.coli (Escherichia coli)

#### Ideal for baby clothes drying

Our dryer demonstrates the same level of disinfection effect as sun-dried. Moreover, since there is no need for external drying, there is no worry that particulates such as dust and exhaust gas will adhere.

#### Fast 1KG Quickie

< 20 min quick drying of small amount of clothes for 1kg

### High-power hot shower

With 3.8kW heating capacity that shortens heating time, provides hot water faster to give you instantly relaxing hot shower, especially on a cold day.

### Earth Leakage Circuit Breaker (ELCB)

Cuts off electricity supply in the event of current leakage.

## Key Features

### 1-Knob Control

Easy temperature control with a turn.

### Lightning & Surge Protection

Built-in surge protector protects from lightning strikes and current leakage.

### Dual Over Temperature Safety Cut-Off

Avoids overheating and scalding with auto-reset if water temperature exceeds set limit.

(Primary cut-off: 55°C; Secondary cut-off: 90°C)

### IP25 Splash-Proof Protection

ABS plastic waterproof casing is in compliant with IP25 Safety Standard to prevent water and dust.

### Auto Flow Sensor Switch

Shuts off heater automatically to avoid dry burn when water flow is too low.

### 5-Multi Spray Handshower

Comes with a choice of 5 classic spray nozzles.

### Warranty

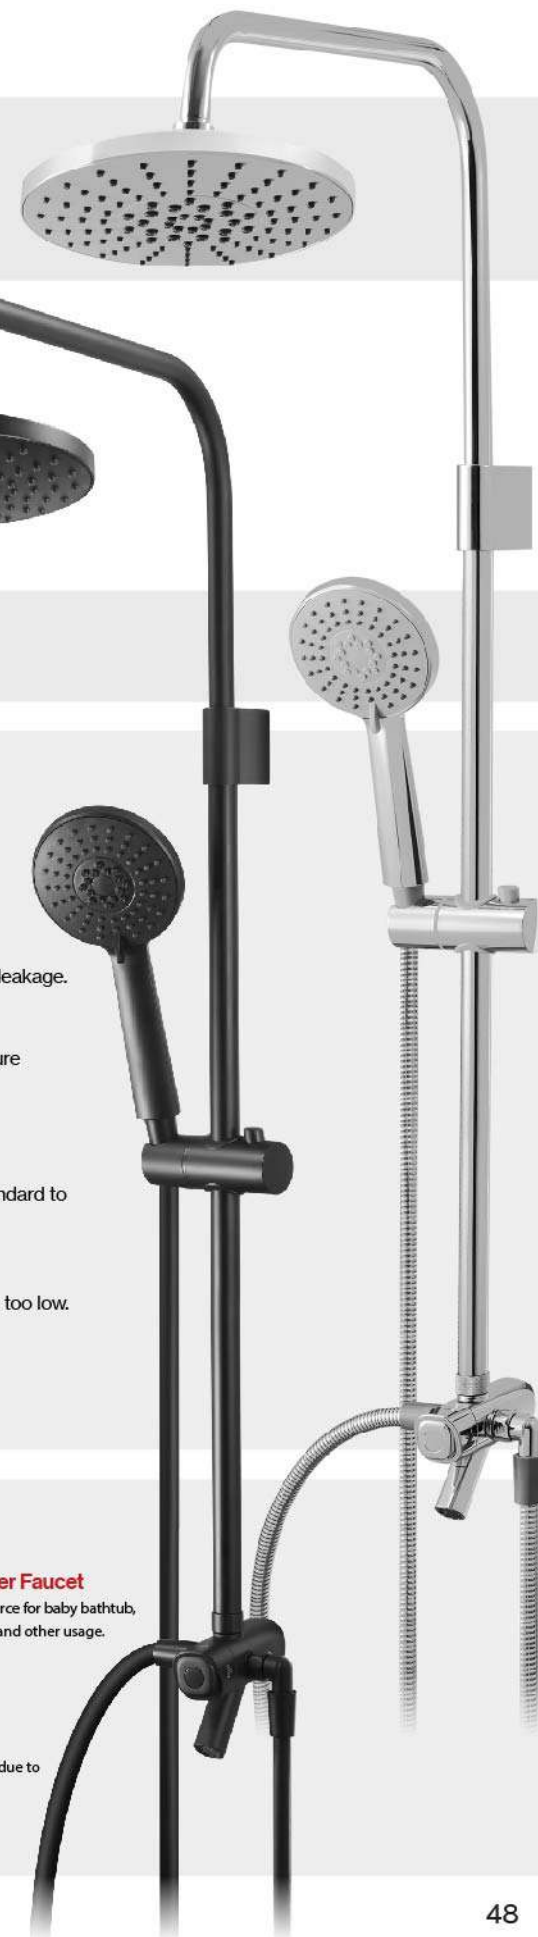

### Hot / Normal Water Faucet

Additional hot water source for baby bathtub, clothes pail, pet shower and other usage.

### Anti-Twist Hose

Prevents low water flow due to twisted hose.

## Save More Than 10% Gas

\*compared to min requirement set by local authority

### Detachable Top Plate

Our table top cooker comes with a detachable top plate. This feature allows for easy cleaning and maintenance.

## 8 Safety Features

High heating power and heat efficiency. Therefore saves gas and cooking time

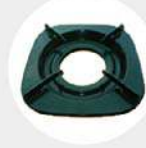

Carbon monoxide (CO) gas from incomplete combustion is maintained at a low 0.04% - prevents risks to health

Special ABS plastic knob does not crack easily

Gas pipe is coated with special anti-rust paint

Enamel-coated pan support withstands heat up to 800°C

The highest-quality gas valve lasts for 60,000 usage cycles; its performance is guaranteed up to 5 years

Type 304 stainless steel burner with excellent anti-rust quality

Sturdy construction is able to support up to 50kg of total weight
